The Multi Ranger

*Versatility
at its
best*

V E R S A T I L I T Y A T I T S B E S T

The Multi Ranger fitted with the Tendercare Modular Seating System.

The Multi Ranger Base unit shown in it's lowest and highest positions.

One hand control unit operates both height and tilt adjustment

Multi-positional titling facility from upright to 28 degrees

The Multi Ranger

The Multi Ranger Lifting Seat is a unique and highly versatile robust powered lifting seat, which incorporates an independently powered operated Tilt in Space Facility.

The Multi Ranger can be used at school or home. It will effortlessly go from floor to above desk height at the touch of a button. All adjustments are operated from a single hand control unit, for ease of use.

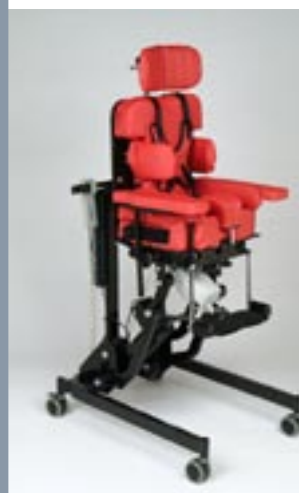

Alternative footrest option.

The Multi Ranger Base will extend in height from 27cm to 78cm and has a tilting facility of up to 28°. The multi positional height and tilting facility allows this base to be adjusted to a variety of positions to suit the occupants needs.

The slim line base is narrow enough to fit effortlessly through standard sized doorways. At home, the Multi Ranger will allow access to dining tables, computer desks and at school students are able to fully participate in all lessons without needing carer assistance to adjust chair height.

This product can either be purchased as a base or complete with one of our seating systems. The Multi Ranger can also be interfaced with alternative seating systems.

The Multi Ranger is suitable for occupants with a weight limit of up to 65Kg. It is manufactured from mild steel and then finished in a high gloss black paint.

Height adjustable from 270mm - 780mm at the touch of a button
