

Versatility at it's best

# Tilt & Fold Wheelchair

With Multi Positional Gas Strut Facility

This unique wheelchair has been designed specifically for those who require a Tilt in Space facility. The Dual Gas Struts can be easily adjusted into a wide range of positions, providing comfort to suit the occupants needs. One of the many features of the wheelchair is its ability to be folded compactly, thereby taking up minimal space when not in use.

The 2-in-1 frame support gives the wheelchair strength, stability and rigidity over uneven surfaces, yet it handles and manoeuvres easily, making everyday life that little bit easier.

The push handles are height adjustable and reversible for the attendant's comfort and ease of use.

The Tilt & Fold Wheelchair Folded.

The Tilt and Fold Wheelchair is has been successfully impact tested in accordance to ISO 7176/19 and therefore ensures safe transportation of the occupant in specially adapted vehicles.

The Tilt and Fold Wheelchair is available with a range of accessories including;

Thoracic backboard with various harnessing

Angle adjustable occupant trays

24" quick release wheels

Padded pelvic straps

Elevating leg rests

Side infill panels (range of widths available)

Padded foot boxes

Seat cushions

Extra deep headrests

Various Height & Width Armrest Options

We also have the facilities to manufacture bespoke items as required.

The Tilt & Fold Wheelchair fitted with Thoracic Backboard and Elevating Leg Rests.
